

# Anika and it's support for the orphans of Malaysia

## – A Message from the Chairman

Commemorating the third year of Anika's campaign to reach out and bring joy to some of the orphans in our community, this year's calendar sees two professional photographers capture some of the expressions of the hopes, dreams and aspirations of these very special individuals under the theme "Hopes and Dreams".

In 2003 we held our first gathering when we threw a party and movie session for over a hundred orphans at KLCC. The children came, ate and drank to their hearts' content and everyone enjoyed themselves tremendously. In fact, it was so enjoyable and personally satisfying for so many of us that we decided to invite them back again in 2004, but this time to participate in an art competition. We selected twelve winning pieces and compiled them into our 2005 calendar, which proved to be so popular that we had to limit the pieces to two per customer! We hope that this year, these images will touch your heart and move you enough to lend a helping hand to these children and their homes, whether in terms of financial support or man-hours.

On a personal level, I would like to take the opportunity to thank the organizing committee for their hard work in putting this calendar together as well as to my fellow directors for supporting this project. I would also like to thank all the volunteers from the six orphanages for having been so helpful, efficient and generous of heart and spirit. Last but definitely not least, a big thank you to all the wonderful kids that we have met on this and past projects: their presence gives meaning to our lives and efforts.
